

BinWash**RANGE**

EXPORT & SHIPPING

To ensure the machine is transported securely and safely we have a specially made crate to pack the machine into. Unless the machine is transported door to door on a single shipment we always advise the use of the crate to ship the machine.

The crate comprises of a heavy-duty, polythene lined case. The sides, ends and lid are made from 9mm plywood boarded with 100 x 22mm softwood framing. All of our timber is heat treated to ISPM/15 standards and suitable for export worldwide and would bear our unique Forestry commission stamp as well as the Morclean logo. (If a consignment is going to Australia we can issue a heat treatment certificate).

CRATE SPECIFICATION

Size (approx)	327x177x 146cm
Gross weight (approx)	784kg
Other	10 x 100x50mm softwood battens cut to the width of the case included for packing.
